MURDER IN FIRST DEGREE.

Charles May Convicted of Having Killed John R. Martin.

St. Joseph, Mo., April 26,—Charles May, charged with Miling John R. Martin, near Dekalb on the night of December 27 last, was found guilty of murder in the first degree by a jury in the Criminal Court Friday and will be formally sentenced when the present term of court adjourns.

The jury was out but an hour and a half. Except a slight trembling of the hands and a deep pallor, the defendant showed no outward signs of emotion when the verdict was read to him.

Martin was killed at a country dance at the home of Peter A. Jones. Martin made some remarks about May, who was calling the dances, having slighted him, and a shooting aftray was on in an instant.

"Babe" Martin, brother of the dead man, made an effort to defend his relative, and narrowly escaped death.

May served two years in the penitentiary for being implicated in the killing of William I. Burdette, near Rushville, February, 8, 1886.

WASHINGTON AVENUE REAL ESTATE DEALS.

Property Between Fifteenth and Sixteenth and Twentieth and Twenty-First Changes Hands.

GOOD PRICES ARE RECEIVED.

Simon Van Raalte and S. H. Leathe, the Purchasers, Will Erect Modern Mercantile Buildings.

As announced in last Sunday's Republic, the property at Nos. 1517 and 149 Washington avenue has been seld to Simon Van Raalte, the announcement of the closing of the deal having been made Friday. The property has a frontage of 23 feet 8 inches on Washington avenue and the price paid was close to \$22,390, or \$610 per front foot. At present the property in occupied by two old buildings, which will be torn down at once. The lot extends back 162 feet, and Mr. Van Raalte intends to creet a mercantile house on the site which will extend than a page of talk. Come to-day and the full depth of the property. The property formerly belonged to the Willis estate. The deal was closed by Rutledge &

Kilpatrick. Plans for one of the largest mercaptile houses in the city are now being prepared for the lot on the north side of Washingon avenue, extending from Twentieth to Twenty-first streets, owned by S. H. Leathe and having a frontage of 376 feet. Mr. Leathe proposes to creet a seven-story building on this site, extending 157 feet back to Lucas avenue, thus occupying the entire block. The approximate cost of the building is estimated at \$300,000.

Mr. Leathe stated Friday evening that the ical would be perfected in a few days and that an architect will be asked to prepare building plans. The general design of the building has been mapped out and a portion will be ar-

ranged for a large woolen house, which will be a tenant upon the completion of its pertion of the structure. Mr. Leathe said that several others were interested in the building, and that all arrangements had not yet been perfected for the letting of the privileges. Mr. Leathe is a well-known capitalist, a former member of the art firm of Petus & Leathe. He lives at No. 1413 Locust street.

EASTERN FLOODS **CUT DOWN BUSINESS**

Interfered With Railroad Operations and Interrupted Distribution, Says Dun's Review.

New York, April 26 .- R. G. Dun & Co.'s weekly review of trade Saturday will say: Business continues brisk for the season in the face of some drawbacks, which ot times might cause marked hesitation. Chief of these is the floods in many directions, which have interfered with railroad operations and interrupted the distribution of merchandisc, and the weather all over the East has been adverse to an increase of retall trade.

Bank clearings, however, show that, while speculation has been heavy, there must have been a well-sustained volume of legitimate business, for the gains are 14.1 per cent over 1900 and 18.9 over 1899 outside of New York, and 105 per cent over 1900 and S4 over

1899 at this city. Railroad earnings make similarly encouraging gains. Reports from the interior show special strength in conditions through Missouri, Kansas and Ohio, and the future is full of promise, unless there is misfortune with the crops. Much unfavorable commen has appeared regarding the advance in steel rails to \$28. Yet the change is only in keep-ing with recent increases in prices of pig fron and billets. Nominal quotations for many products of iron and steel have rong been disregarded in contracts calling for early delivery, and list prices are generally moving up to a representative level. On new business or export orders it is not unreasonable to make prices for rails on a parity with other products of this industry. Aside from this one operation there is no new development.

Little Activity in Pig Iron. Pig fron is more quiet, with little taken for delivery beyond July 1. Domestic business in principal lines of manufactured steel is so active as to discourage foreign buying, but machinery and specialty mills are exporting freely. It is reported from Pittsburg that mills are not crowded by de-mand to the extent noticed in 1839, but productive capacity has largely expended. After prolonged period of waiting for definite crop news the cereal markets suddenly awoke to unusual activity. Much of the increased trading and sharp advance in prices resulted from clever man pulation by a single Western speculator, who com-pelled the short contingent to cover May corn contracts at the highest prices of the

season.

While there was an element of strength in the reports of late planting, slow movement of the old crop held greater influence, as stocks available for delivery were light. Wheat has risen sharply, partly in sympathy with corn, but there was had news regarding the German crop, and some damage occurred at the West.

Light Demand for Wool.

Wool is fairly steady, and this is the best that can be said. Eastern markets are quiet, with light demand from the mills. There is with light demand from the mills. There is less disposition to secure raw material in advance of needs, although much faith is expressed regarding the stability of prices. Reports from many correspondents in the chief sheep-raising States indicate that a larger clip than last year may be expected and the condition is satisfactory. Growers are slow to make contracts at the present level of prices, but the large percentage of the old crop carried over and heavy stocks at the East give little encouragement to hope for higher prices until demand for manufactured goods shows material improvement. Cotton responds slowly to indications of damage on plantations, for the old crop comes into sight freely, and heavy losses in British exports of goods and yarns do not promise a vigorous foreign demand for raw material.

Decrease in Shoc Shipments.

Decrease in Shoc Shipments.

Another decrease is reported in shipments of boots and shoes from New England shops, although there is still a heavier movement than in the same week last year. Factories are less behind with orders, and buyers are inclined to defer new contracts in the hope of securing concessions. As yet, however, quotations are unchanged. Spring trade has been lost through inclement weather and local jobbers no longer expect an average season's business. The same influence has enabled retailers to reduce supplies of rubber footwear carried over from last fall.

Leather is barely steady at last week's decline and stocks of light grades are accumulating. Failures for the week numbered 215 in the United States, against 204 last year, and 25 in Canada, against 22 last Decrease in Shoe Shipments. last year, and 25 in Canada, against 22 last

MERIWETHER BEGINS **ELECTION CONTEST.**

Files Suit Alleging That Rolla Wells Was Elected Mayor of St. Louis by Fraud.

PARKER'S SUIT TO FOLLOW.

Public Ownership and Republican Candidates Make Charges of Extensive Misdeeds at the Polls.

Papers in a suit, contesting on the part of Lee Meriwether and the local Public Ownership party, the election of Rolla Wells as Mayor of St. Louis, were filed at 2:15 p. m. Friday in the Circuit Clerk's office by William F. Smith, one of the attorneys representing Mr. Meriwether.

Notice of contest was served upon Mr. Wells Friday morning at the Mayor's office by Frank S. Kowalski, manager of the Meriwether campaign.

The same procedure will be followed Saturday by Attorney William M. Kinsey and his associate counsel, J. L. Minnis and Frank C Ritchey, who have been retained to contest the recent election on behalf of George W. Parker and the Republican party.

The proceedings were ready Friday afternoon, but Mr. Kinsey, through a special messenger sent to the Election Commissioners' office, learned positively from Mr. Hoblizelle that the official count was com-pleted on April 8, and Mr. Wells's certificate of election was issued on that day. As twenty days are allowed after the issuance of this certificate, in which to file a contest, Mr. Kinsey was assured that there was no necessity to serve notice of contest on Friday and he postponed action until Saturday.
Mr. Kowalski and B. C. Cate called at
Mr. Wells's residence Thursday night to
serve notice of the Meriwether contest. Then Mr. Wells, doubtful as to the legality of such service, refused to receive the pa-pers. But when Mr. Kowalski called at the Mayor's office Friday morning, Mr. Wells received the notice. Later in the day Mr. Wells said that he had not read the notice of contest, but understood that it had been legally served.

Mcriwether Charges Conspiracy.

The charges made by Mr. Meriwether embrace general allegations of fraud. The petition opens with the general assertion that Mr. Meriwether received a plurality of the votes cast at the recent election and that in each precinct outside the Seventh, Ninth. Tenth. Eighteen and Nineteenth wards, from 25 to 159 ballots cast for Meriwether were counted for Wells. In twenty-nine precincts, it is alleged, that there was not signed by the requisite number of judges or because Puolic Ownership and Republican challengers were ejected from the pells. It is also charged that Wells ballots were substituted for Meriwether ballots, that Meriwether ballots were substituted for Meriwether ballots, that Meriwether ballots were substituted for Meriwether ballots, that Meriwether ballots were fraudulently placed upon the registration books. The concluding allegation is that Democratic campaign managers entered into a conspiracy to frauduently carry the election. The charges contained in the papers in the hands of Mr. Parker's attorneys are similar to those made by Meriwether. The allegations are grouped under seven general heads. Under the first of these is the assertion that legal voies for Parker were counted for Wells. Under the second the charge is made that irregular votes for Parker were not counted for him and were omitted in the returns made at the Board of Election Commissioners. The fourth charge is that regular ballots for Parker were rejected by the judges and excluded in the returns. The Meriwether Charges Conspiracy. sioners. The fourth charge is that regular ballots for Parker were rejected by the judges and excluded in the returns. The fifth and sixth charges are that regular votes for Parker were abstracted from ballot boxes and that others in favor of Wells were substituted; and that regular ballots in favor of Parker were tampered with so as to appear in favor of Wells. The concluding charge is that in twenty precincts or more the newly appointed judges and clerks of election were forcibly prevented from serving, that unqualified men took their places, and that the election in these precincts was accordingly rendered void
